CAREER SUMMARY

Web Developer & Automation Executive in responsive web applications, AI-powered workflow automation, and API's integrations. Passionate about building scalable digital solutions that improve performance, streamline business process, and enhance user experience.

PROFESSIONAL EXPERIENCE

Web Developer Executive (Contract) | Digital Go Where | Kota, Rajasthan

July 2026 – Dec 2026

- Developed, optimized, tested, and maintained responsive WordPress websites, ensuring Core Web Vitals, SEO, security, high performance, and reliable server operations.

Web & Automation Intern | Digital Go Where | Kota, Rajasthan

Mar 2026 – Jun 2026

- Developed and maintained 15+ responsive WordPress websites for national and international clients, ensuring 90+ PageSpeed scores, optimized Core Web Vitals, and SEO-friendly architecture.
- Delivered 20+ website enhancements by performing testing, debugging, third-party API integrations, server management, and resolving hosting, DNS, and SSL issues with minimal downtime.
- Built 10+ business workflow automations using n8n, APIs, and webhooks, reducing manual processes and improving operational efficiency across client projects.
- Built custom WordPress solutions, integrated Mailchimp email marketing, and implemented tailored features using plugins, API's and custom code.

PROJECTS

AI SDR Lead Generation & Outreach Automation Agent | Personal Project

- Developed a multi-agent AI SDR automation system that qualified leads, enriched prospect data, generated personalized sales email drafts, and automated CRM updates through intelligent workflow orchestration.
